

Information about ERASMUS+ funding for students of the joint master study program „Maritime Operations“ for the first semester in Haugesund.

If you have your main residence outside of Norway (**before you start in Haugesund**) you may apply for an ERASMUS+ funding (**distributed by University of Applied Sciences Emden/Leer**).

ERASMUS+ application deadlines:

- 15th May for students who apply for the study program until 15th of April
- 1st July for students who apply for the study program until 15th of June

The number of ERASMUS+ grants depends each year on the budget allocated to University of Applied Sciences Emden/Leer by the European Union. If you are selected, you will receive the funding for the period of your stay during the semester in Norway which will take place usually between mid-August until mid-December (approximately 4 months). The minimum rate per month will be 250 €. Please note, that there will be some documents like a Grant Agreement, a Learning Agreement and an online language test which have to be filled out before your start in Norway. You will receive these documents after selection by the International Office of University of Applied Sciences Emden/Leer. Please ensure that you return these documents back to us in time (in any case before you start in Norway). Otherwise there can be no funding.

The Faculty of Maritime Studies at University of Applied Sciences Emden/Leer and the International Office select the students who will get the funding depending on the academic qualification and English language skills.
